STATISTICAL INFORMATION

Respecting the

Municipalities of the Province of Manitoba

Honourable A.R. (Pete) Adam
Minister of Municipal Affairs

FOREWORD

The material contained in this publication has been compiled from the audited financial statements of the municipal corporations in the Province of Manitoba which have been submitted to this Department as required by the Municipal Act. Some minor alterations have been made to the financial statements in order to present the financial information on a consistent basis for comparable purposes. For example, although some municipal corporations record the water utility and the sewer utility as separate accounting entities, these utilities have been combined for the purpose of this publication since the majority of water and sewer systems are operated as one unit and the operation cannot be separated.

The graphical presentations of General Fund Revenue and Expenditures again appear on pages 58 — 63. The Revenues by Type and Expenditures by Function are the same data as presented in General Fund Revenue and General Fund Expenditure shown on pages 20 — 27.

A statement showing the total gross income and gross expenditures for all funds of the municipalities for the year 1981 is included in this publication on pages 50 to 53, inclusive. All inter-fund transfers of money between funds in the year have been eliminated from this statement, in order to avoid duplication of amounts in both the income and expenditure totals.

The Comparative summarized statistics on pages 55 to 57 show the applicable amounts for the current year, the preceding years, 1979 and 1980, the fifth preceding year 1976, and the tenth preceding year 1971. These comparative statistics clearly illustrate the significant increases in the volume of municipal tax imposition and taxes collected over this period of time.

The immediate cash surplus or deficit of a municipality represents the difference between total cash assets and total current liabilities of the general operating fund as at December 31, 1981. The immediate cash surplus of all municipalities is $10,365,312 at December 31, 1981, an improvement during the year of $8,011,877. In total, 156 municipalities showed a cash improvement in 1981, and 46 municipalities showed a cash impairment.

In addition to the immediate cash surplus of $10,365,312 referred to above, the municipalities had investments of $22,279,159, exclusive of trust investments. The total investments are analyzed by individual municipal holdings on pages 46 and 47 in this publication. Trust investments of $407,375,402 are included in this analysis. These investments are largely composed of sinking funds and employee pension funds as presented on pages 18 and 19.
